

REMARKS

Figure 2B has been amended to show the correct sequence for a PvuII restriction endonuclease. The recognition sequence for PvuII is well known and applicants submit that the amendment corrects an obvious typographical error and contains no new matter.

Applicants believe that the present application is now in condition for allowance. Favorable reconsideration of the application as amended is respectfully requested.

The Examiner is invited to contact the undersigned by telephone if it is felt that a telephone interview would advance the prosecution of the present application.

Respectfully submitted,
